**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-7 are drawn to searching a set of objects, classified in class 706, subclass 26.
  - II. Claims 8 and 9 are drawn to a hierarchical search apparatus, classified in class 382, subclass 232.
2. The inventions are distinct, each from the other because:  
Each group is directed to separate invention.
3. Inventions group I and group II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions group I has predetermined number of objects as an output being sufficiently close to a centroid of a class objects while group II does not have predetermined number of objects as an output being sufficiently close to a centroid of a class objects and group II has a microprocessor in communication with the video capturing means and the first memory and second memory while group I does not have a microprocessor in communication with the video capturing means and the first memory and second memory.

Art Unit: 2121

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
